

AUBERGE LA PUCHOTAZ / MAYOUX

Bistro - Lodge - Grocery store

La Puchotaz lodge is built on three principles: an authentic setting, local, sustainable food, and close links with the region's producers.

It follows the very modern trend for a simpler, more natural way of life, where we are less wasteful and more conscious of the social and environmental impact of what we consume.

At our little **lodge**, we do this is by giving you a fantastic night's sleep. After admiring the view of the mountains, you can drift off to the trickle of the nearby stream in one of our 2-, 4- or 6-person rooms.

The **café** is a friendly spot where you can treat your taste buds to simple, home-cooked fare. It also serves up typical local beverages that will make you feel right at home.

Last but not least, there's our **shop selling local, loose goods**. The shop is our way of sharing a new kind of consumption with both guests and local residents. It's goodbye plastic and hello reusable bags and containers. We put the region's delicacies centre stage, in all their natural glory!
