

CABANE MOIRY HUT / GRIMENTZ

Guarded from mid-June to mid-Septembre

The mountain hut's location enjoys a stunning view of the Moiry glacier, level with the serac-strewn icefall, ideally placed at the foot of glacial peaks such as the Grand Cornier, Pigne de la Lé and Pointes de Mourt, in the heart of the Valais Alps.

It is reached on foot from the end of the Moiry dam road in about an hour and a half. The trail is Alpine in character and steep in places, so we recommend good hiking equipment and the use of ropes over the more difficult passages. The path may be snow-covered until late in the season, sometimes even at the end of July or beginning of August.

Features

- Type of accomodation: Mountain huts
- Price range: \$ (moderate cost)
