

# VERNISSAGE OF THE ARTWORK « AILES POLYCHROMES » / ST-LUC

After a passage in the Cathedral of Lausanne, this artistic installation finds its  
final destination in the church of St-Luc.

Ignazio Bettua created two large wings with more than 3'000 colored pencils, inspired by certain pictorial representations of the Annunciation made to Mary by the angel Gabriel according to the Gospel of Saint Luke.

After having adorned the Cathedral of Lausanne in the plain, this work, witnessing the link between belief and culture, imagination and reality, will reach the mountains from October 18, 2020.

10:00 | Mass presided by Father Marc Donzé  
after the mass | Presentation of the stained glass windows of the church of St-Luc by Pastor Jocelyne Muller, followed by an aperitif

## Dates

- 18.10.2020
